Product highlights

Clean Jet System

A new nozzle system integrated into the upper basket sprays water directly to the bottom of glasses and wine decanters, producing brilliantly gleaming outcomes.

ICS+ Intelligent Control System

Thanks to sensors, this programme adjusts the wash cycle's parameters (time, water, and temperature) based on the number of dirty dishes and their level of soiling. The result is always flawless.

### Energy Consumption Indicator

The consumption indicator shows water and energy consumption for a selected programme, with more bars indicating higher water consumption and more bars indicating higher energy consumption.
